The people running the business were like family friends from the very start checking the kids were happy and giving great feedback and enthusiasm to catch more waves. Would strongly suggest having a lesson with them when in Byron next.

OUR STORY

For over two decades, our passionate team of surfers have thrived on sharing their wisdom and skill in practical ways that are accessible to anyone. With a well-established presence on Australia's most prominent beaches, Let's Go Surfing is one of the longest running and most trusted surf schools in the country.

We often talk of our humble beginnings, starting out in co-founder Brenda Miley's van. It wasn't long before she was joined by Wacca (Craig Wachholz) and the Let's Go Surfing community began to grow. In the years since we have helped thousands of people from all over the world learn to surf, developing confidence, focus and strength.

Whether our feet are on the sand, on a board or in the office, our eyes are fixed on the horizon. Along with teaching, we're focused on learning, improving and expanding, from our classes and products to our physical locations. We shoot for the stars and land on the waves.

We're living proof that surfing helps develop health, focus and a connection with self. Find your balance, freedom and fun with incredible experiences immersed in authentic beach culture.

OUR TEAM

We are a team of passionate individuals who thrive on sharing our surfing knowledge. Hand-picked from the best local, national and international coaches, our professionals hold the highest certifications. Behind the scenes we take our profession very seriously, but on the beach we're all about having fun, celebrating our differences and making sure you get the most from every experience.

We might be at the top of our game, but we never stop learning. Wisdom and experience flow between instructors and students like water, making sure everyone involved grows with each lesson. From various backgrounds and occupations, Let's Go Surfing has the perfect instructor for you, whatever your skill level, personality or interests.

We like to think we never work a day, but come along to a class and you'll see that's not true. We work hard, have fun and love what we do and that flows through to every class and student. We also make sure that the only footprints we leave are on the sand and support community initiatives that help keep our beaches beautiful. Real people, places and experiences are what matter to us. We encourage passion. We foster potential. We all meet together on the waves.

HISTORY

Lets Go Surfing (LGS) is the friendliest and most professional surf school in Australia. Surfing is a unique slice of Aussie life. LGS which established in 1995 by Brenda Miley is a pioneer of learn to surf experiences.

Miley, a local surfing champion and PE teacher started LGS out of the back of a Kombi van in the car park on Bondi Beach with a couple of surfboards and a lot of enthusiasm. Brenda had an idea to encourage more women to get into the sport of surfing.

"When I was competing there weren't a lot of girls surfing, so I thought the best way to change that was to encourage and coach girls and that's how it all started!" Brenda Miley.

Today LGS has grown into a professional team of over 50 male and female surf instructors and delivers a range of exciting and authentic safe surf experiences to individuals, couples, families and groups. Operating exclusively on Bondi Beach & Maroubra Beach in Sydney year round, as well as beautiful Byron Bay - where Sydney surfers go on holiday! LGS is an awesome destination 365 days a year. LGS's unique tours have been experienced by over 100,000 delighted adventure seekers from all over the world. LGS continues to develop as an iconic must do Australian Activity.

“Superb instruction and experience”

Can't praise the instruction more highly, especially for a first time surfer. Very thorough instruction and preparation with plenty of fun in the water. The whole team at 'Let's Go Surfing' were brilliant.

- Woodland, United Kingdom, Tripadvisor Review August 2015

“Highly Recommended”

The staff at Let's Go Surfing is amazing! We booked a private family surf lesson which included children aged 9,11, and 13... The lesson itself ended up being a highlight of our two week vacation. Our kids were begging to go back for more lessons the entire time we were in Australia! - Aubree, New Jersey, USA Tripadvisor Review April 2015

“Most professional surf school I have experienced”

I had a group of 10 high school students for the states arriving that participated in a group surf lesson... By the end everyone in my group was standing up and riding waves all the way to shore. I definitely recommend them... surfing was a highlight of the trip and a great start to their trip in Australia! - Carolyn K, Richmond, Virginia, USA Tripadvisor July 2015
